Summary

A final year engineering undergrad at Savitribai Phule Pune University. I'm majoring in Information Technology and I'm interested in web development and seeking exciting opportunities related to the same.

Having an experience as an intern at an early stage start-up I have repeatedly been exposed to new technologies and challenges. This has made me able to quickly adapt to changes and gain a broader perspective. I'm always curious about things and enjoy learning. I like to solve problems and fix errors. I am detail oriented person and I keep my goals and tasks organized to maintain productivity.

I believe that the skills I have attained in dynamic environment and competitive university life define me and I'm looking forward to implementing and polishing in any opportunity that I receive
