Bike Riding

Football

Hiking/Trekking

Summary

A final year engineering undergrad at Savitribai Phule Pune University. I'm majoring in Information Technology and I'm interested in web development and seeking exciting opportunities related to the same. Having an experience as an intern at an early stage start-up I have repeatedly been exposed to new technologies and challenges. This has made me able to quickly adapt to changes and gain a broader perspective. I'm always curious about things and enjoy learning. I like to solve problems and fix errors. I am detail oriented person and I keep my goals and tasks organized to maintain productivity. I believe that the skills I have attained in dynamic environment and competitive university life define me and I'm looking forward to implementing and polishing in any opportunity that I receive

Educational Training

PCET'S Nutan Maharashtra Institute Of Engineering & Technology, Pune

Bachelor Of Engineering
(Information Technology)

- Enrolled since 2018 to present
- Aggregate CGPA - 8.79

Bharatiya Jain Sanghatana High School & Junior College, Pimpri, Pune

HSC/12th (Science)

- Attended from June 2017 to May 2018
- Percentage - 67.85%

Bharatiya Jain Sanghatana High School & Junior College, Pimpri, Pune

SSC/10th

- Attended from June 2015 to May 2016
- Percentage - 89.00%

Experience/Internship

Full Stack Developer Intern

Creatosaurus, Pune
March 2021 - Present

- Designs and creates software solutions to solve pain points for various clients
- Checks feasibility of software prototypes
- Modifies code to fix errors

Professional Skills

Languages/Technologies:

JavaScript, Python, HTML5, CSS3, NodeJs, MongoDB, MySql, Basic DSA

Frameworks/Systems:

ReactJS, ExpressJS, Bootstrap, Git, Github, Bitbucket, VS Code

Personal Projects

AI Powered News App

This is one of my most advance project. In this project I created a news app using NEWS API. I implemented voice search and auto reading of news by a voice assistant using Alan AI Api. We can search news by categories like sports, entertainment, technology, etc

- Tech stack I used - React, Material-UI, Alan AI API and NEWS API.

JWT Authentication System

In this project I implemented user registration and login system using jwt tokens. I have also applied authentication to sensitive/main Api of the website for security

- Tech stack I used - Html, Css, Javascript, MongoDB, Node.js, Express.js
