Mahatma Phulenagar, MIDC

Bhosari

Pune, Maharashtra

Summary

A third year engineering undergrad at Savitribai Phule Pune University. I'm majoring in Information Technology and I'm interested in web development and seeking exciting opportunities related to the same.

Having an experience as an intern at an early stage start-up I have repeatedly been exposed to new technologies and challenges. This has made me able to quickly adapt to changes and gain a broader perspective. I'm always curious about things and enjoy learning. I like to solve problems and fix errors. I am detail oriented person and I keep my goals and tasks organized to maintain productivity.

I believe that the skills I have attained in dynamic environment and competitive university life define me and I'm looking forward to implementing and polishing in any opportunity that I receive.

Skills

- HTML5
- JavaScript
- JQuery
- GitHub
- Node.js
- MongoDB
- Python
- CSS3
- Bootstrap
- Git
- React
- Express.js
- MySQL
- Visual Studio

Bharatiya Jain Sanghatana • Pune, Maharashtra

06/2018

- Scored 67.85% in board exams

- Scored 89% in boards exam and secured 3rd rank in school.
-

Personal Projects

- Full Fledged E-commerce Website

This is a full stack application in which I have implemented almost everything an E-commerce website could have. From user authentication to payments and admin dashboard everything is covered in it.

Tech stack I used – React, MongoDB, Node, Express, Redux .

- AI Powered News App

This is one of my most advance project. In this project I created a news app using NEWS API. I implemented voice search and auto reading of news by a voice assistant using Alan AI Api. We can search news by categories like sports, entertainment, technology, etc.

Tech stack I used – React, Material-UI, Alan AI API and NEWS API.

- JWT Authentication Sysytem

In this project I implemented user registration and login system using jwt tokens. I have also applied authenticaton to sensitive/main Api of the website for security.

Tech stack I used – Html, Css, Javascript, MongoDB, Node.js, Express.js

- E-book Selling Website

In this project I created a simple web page where user can buy an ebook. I have used Stripe API for payments.

Tech stack I used – Html, Css, Jquery, Express.js, Node.js, Heroku, Stripe API.

- Tech Start-Up Website Template

In this mini project I implemented a frontend design for a tech enterprise website.

Tech stack I used : Html, Css, JavaScript, Jquery.

- Restaurant Website Design Template

In this website I used Html and Css flexbox to implement a fully responsive website design for a restaurant. Tech stack used : html, css, css (flexbox) .

Tech stack I used – Html, Css(flexbox).

Languages

- English
 - Marathi (Marāṭhī)
 - Hindi
-

Hobbies

- Trekking
- Writing Poems

- Bike Riding
